

The Ghost Station

A.G.I.
envirotank

AGI would like to introduce you to our UNATTENDED aboveground service station. The Ghost Station consists of a DOUBLE WALL Envirotank with a card reader capable of processing CREDIT CARDS, DEBIT CARDS and Private Cards. The Ghost Station will allow you to

- ❖ Reduce labour costs.
- ❖ Permit 24-hour operation.
- ❖ Increase sales volume.
- ❖ Increase net profits.

Aboveground Envirotank

- ❖ The Ghost Station ships as a TURNKEY SYSTEM.
- ❖ Everything required to MEET THE FIRE CODE can be included. (Signs, collision protection, fire extin-guishers....)
- ❖ Once delivered to site the system can be up and running in days.
- ❖ Because everything is aboveground it is an asset that can be RELOCATED if required.

The Card Reader

- ❖ The card reader accepts DEBIT, VISA, MASTER CARD, Discover, American Express, and private cards.
- ❖ Monitor your Ghost Station from any remote PC with a modem.
- ❖ Remotely retrieve sales, change pricing on dispensers, activate cards, deactivate cards and give customers discounts.
- ❖ Export data into your existing accounting system or use the windows software included with the card reader.

It is all good design,
quality, delivery and cost.
